

The Neutral Building Blocks

the neutral building blocks (formal chg. = 0)	number of domains		
	four 	three 	two 
carbon	C	C	C C
nitrogen	N	N	N
oxygen	O	O	
fluorine	F		

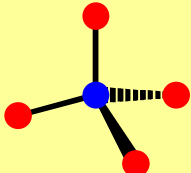

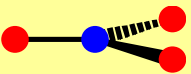

Finish these tables by drawing the building blocks, complete with electron configuration and formal charge.

The Negatively Charged Building Blocks

the negatively charged building blocks (formal charge = -1)	number of domains		
	four	three	two
C^- building blocks			
N^- building blocks	C	C	
O^- building blocks	O		
F^- building blocks	F		

The Positively Charged Building Blocks

the positively charged building blocks (formal chg. = +1)	number of domains		
	four 	three 	two 
C⁺ building blocks		C	C
N⁺ building blocks	N	N	N N
O⁺ building blocks	O	O	O
F⁺ building blocks	F	F
